100 YEARS OF EXCELLENCE, AND A FUTURE STILL BEING BUILT.

When my grandfather opened our first Alexandria workshop in 1926, the choice was simple: do the steel work no one else could. A century later, that same conviction guides every plate we cut, every weld we run, and every pipe we deliver across Egypt and the wider MENA region.

ElBattat Holding is the family of companies built around that promise — Steel METRACO, Engineering Consultancy, Global Trade and Real Estate — together serving irrigation authorities, water utilities, contractors and industrial owners with engineered solutions they can stake a delivery date on. This profile is a snapshot of who we are at our centenary year — the workshops, the people, the projects, and the journey ahead.

— **Assem ElBattat**

Chairman, ElBattat Holding

ABOUT ElBattat Holding

A century-old family of engineering and steel-fabrication businesses, headquartered in Alexandria.

Engineering **Egypt's** Heavy Industries

SINCE 1926

EIBattat Holding is a private, family-led Egyptian group whose roots run back to a 1926 Alexandria fabrication workshop. From that single shop, the group has grown into a portfolio of engineering, manufacturing and industrial-services companies serving water, irrigation, marine, bridge and process-industry clients across Egypt and the MENA region.

At the heart of the group sits **EIBattat Steel METRACO** — a 17,000 m² manufacturing campus delivering large-diameter water pipes (DN100 to DN4250+), hydraulic gates, weed screens, steel bridges, marine works and integrated industrial steel packages to NOPWASD, MWRI, Hassan Allam, Arab Contractors, Redcon and other tier-one clients.

Around METRACO, the holding develops an Engineering Consultancy, a Global Trade division and real estate — companies that share one identity: technical certainty, traceable quality, and delivered milestones.

03 Vision, Mission & Values

Vision

To shape Egypt's industrial future through engineered reliability and innovation.

Mission

To deliver trusted steel fabrication, infrastructure, and industrial solutions with precision and accountability.

Core Values

Legacy • Quality • Commitment •
Innovation • Partnership

04 Our Story 1926-2026

A century of engineering legacy, built milestone by milestone.

1926

Workshop Founded

A family workshop in Alexandria becomes the foundation of a lasting legacy.

1954

Engineering Projects Company

Our early projects set the standard for quality and reliability across industries.

1987

Third Generation Leadership

A new generation drives growth, innovation and international reach.

2003

METRACO Era

The launch of ElBattat Steel METRACO and our 17,000 m² campus defines a new era.

2026

Centenary Edition

100 years of engineering legacy, building the future we envision.

05 Leadership

Stewarding a century of trust and engineering values.

07

Our Companies — Steel **METRACO** Catalogue

Heavy fabrication capability for critical infrastructure.

Large-Diameter Water Pipes
(DN100–DN4250+)

Hydraulic Gates

Intake Weed Screens

Steel Bridges

Marine Works

Integrated Steel Packages

17,000 m² manufacturing campus.

08 Sectors We Serve

Water Infrastructure

Built for flow. Designed to last.

Irrigation

Smart solutions for sustainable growth.

Marine Works

Engineering the strength behind every shoreline.

Steel Bridges & Structures

Connecting places.
Strengthening futures.

Industrial Facilities

Enabling industries.
Building progress.

Public Contractors & Authorities

Delivering infrastructure that serves communities.

09

Flagship Projects & Case Studies

Large-Diameter Water Pipeline Systems

Tier-One Industrial Clients

Across Water, Infrastructure,
Marine & Industrial Sectors

Certifications & Quality

Built to specification. Delivered with confidence.

Quality Assurance

Rigorous systems and processes ensure consistent quality at every stage.

Material Traceability

End-to-end traceability of materials from source to final delivery.

Inspection & Testing

Advanced inspection and testing protocols to verify compliance and performance.

Delivery Reliability

On-time delivery through disciplined planning, execution, and logistics.

Sustainability & CSR

Engineering progress with responsibility.

Safer Workplaces

We prioritize the health, safety and well-being of our people at every stage.

Efficient Fabrication

We invest in efficient processes and smart technologies that reduce waste and conserve resources.

Long-Life Infrastructure

We build durable, reliable solutions that stand the test of time and support sustainable development.

People & Community

We empower our teams and contribute to the communities where we live and work.

Certifications & Quality

Why ElBattat

What makes us the partner of choice.

01

A century of trust

Nearly 100 years of engineering legacy built on integrity, reliability and long-term relationships.

02

Heavy engineering capability

Fabrication, water infrastructure and industrial steel solutions delivered to the highest standards.

03

Quality and delivery

Traceable quality, disciplined execution and dependable milestones.

04

Integrated group expertise

Manufacturing, consultancy, trade and real-estate support — one partner, end-to-end value.
